Some Things about Corns

There are two kinds of Corns, vegetable and animal. Vegetable corn grows in rows; animal corns grow on toes. Vegetable corn is known as field corn and animal corns as the kind you feel. Vegetable corn is sometimes called sweet corn; animal corns are never sweet, but are very bitter. You will know this if you have ever felt one bite. Vegetable corn grows on ears, but animal corns grow on feet. They are often caused by tight shoes. So, when a man is tight, people say that he is corned.

A farmer said that he raised one hundred bushels of corn on an acre, but that he had one corn which was the biggest acher he had on his farm.

There are other kinds of corn— Unicorn, Capricorn, and Corn Dodgers. The Best Corn Dodger is Davis' Corn Remedy, 15c and 25c a bottle. "The best is none too good," but we also have all the other kinds. (Sent by mail on receipt of price.)

GREAT DEMAND THIS SPRING FOR TENEMENTS, especially in south and easterly sections of the city, also nearly all houses built for homes the past year were built in this section of the city. I have lots on many desirable streets and mostly in eastern section of city, on Hill St., Ayer St., Kirk St., Quarry, Circle, Camp, Tremont, East, Currier, Grandview, Long St., any of which I will sell at as favorable prices, or more favorable than equally as desirable lots can be had elsewhere. If you were to buy a cow you would usually see a party who had many for sale, rather than buy a man's only cow. Take a walk during the next day or two, visiting above streets. Notice they are our best streets and lots well elevated. No fear of surface water or floods.
